

Beginner Metal Class for Beaders

San Francisco's Revere Academy of Jewelry Arts will offer a beginning class on fabricating metal jewelry, April 27-29, 2006. For

those already making jewelry using primarily beading techniques, this class is a great chance to learn more, expand their repertoire of skills and add hand made metal components to their beaded pieces. Fabrication I is intended for those with little or no previous experience. The

class introduces basic jewelry tools and fabrication skills such as sawing, filing, soldering, drilling and

polishing. For more info e-mail the Revere Academy of Jewelry Arts at info@revereacademy.com, or visit www.revereacademy.com.

Amber and pearl necklace with hand fabricated 18k gold pendant and clasp by Natalie Pavlik.
