

REVERE ACADEMY EAST IV

Once every two years, the Revere Academy and the Florida Society of Goldsmiths collaborate and present six days of workshops on the East Coast. This summer's program will be held at Wildacres Retreat in the mountains of North

Carolina from October 29 to November 5, 2007. Revere Academy East offers a unique opportunity for those on the East Coast to take the Revere Academy's most popular classes closer to home. Each student can choose two classes from subjects such as Fabrication, Stone Setting, Granulation, Mokumé-Gané, Clasps, and Design. Students receive a Revere Academy certificate for each class, and classes are applicable to the California state requirements for the Jewelry Technician and Graduate Jeweler Diplomas.
